

For flawless end products:
**New box folding belts
with grey rubber coating**

siegling extremultus
flat belts

Cardboard boxes, corrugated cardboard and tissue products can now be processed more gently with grey coated folder and carrier belts.

They comply with the new (EU) 10/2011 regulation, the (EC) 1935/2004 regulation and are BfR and FDA approved.

For flawless end products: New box folding belts with grey rubber coating

The properties

The advantages

FDA- and EU-compliant	▶ ideal for hygiene-critical areas
coating on both sides with new rubber blend in neutral grey	▶ no markings; no obvious abrasion
durable and highly abrasion-resistant; strong edges	▶ long service life
almost constant grip	▶ consistent grip over the whole of their service lives
tension maintained	▶ no re-tensioning
with polyester tension member (E) or polyamide tension member (P)	▶ for a wide range of applications

The new types

Technical data	E line (polyester tension member)		P line (polyamide tension member)
